

Fisher

Moving Fishers Across North America

Fishers disappeared from Washington State in the 1900s. The Calgary Zoo is helping move wild fishers there from Alberta with the expertise of our conservation and veterinary team!

Can you identify Washington State on this map?

Where is Calgary, AB located?

Where are boreal forests located?

What ocean is Washington State beside?

What forest is closest to where you live?

Try drawing a map of your neighbourhood. What types of features should you add to your map?

How many animals can you think of that live in the forests nearest to you?

Gulf of Mexico

Mexico
