

How Tall Can You Build?

Did you know that a group of giraffes is called a tower?

Try making your own tower from home.

Use materials that you find in your house (with your parents' permission!)

Share your towers online!

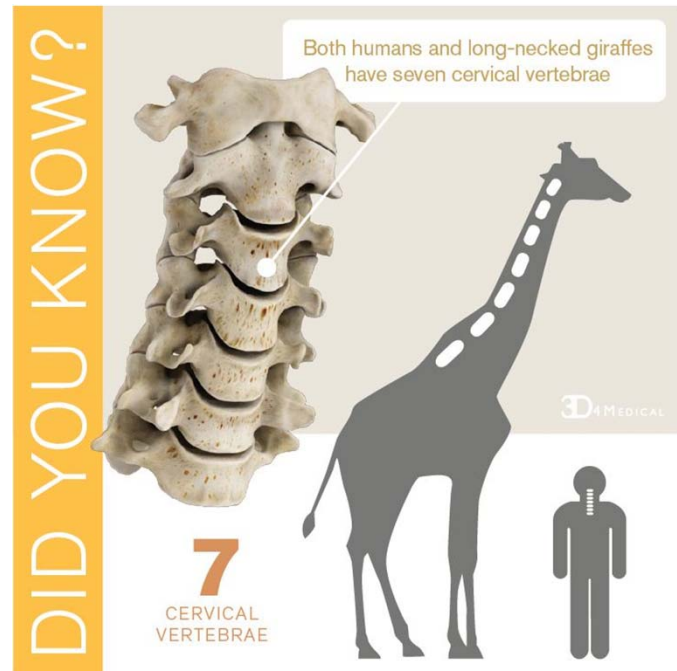

- Can you make a tower as tall as one of the tall animals listed below?
- What helps you to make your tower higher?
- Try using as many pieces as possible, or just a few pieces.

Tall Animals

Giraffe - the tallest mammal! Up to 5.8m tall!

Red Kangaroo - the tallest marsupial. Up to 2.2m tall!

Ostrich - the tallest bird! Up to 2.7m tall!

Giraffe's get their long necks from their extra-large vertebrae! You have seven vertebrae stacked in your neck, and so do giraffes!
