

Trophic Cascades

Let's take what we learned about wolves and apply it to another ecosystem!

1. Find all the Parts of the Ecosystem!
Highlight the Plants

2. Find all the Parts of the Ecosystem!
Circle the Prey

3. Find all the Parts of the Ecosystem!
Put a square around the Predators

4. Can you spot the differences between these ecosystems?

5. What do you think would happen because of those changes?

6. Use items around your house to build your own ecosystem!
