## Puzzling Pallas's Cats

Let's explore some of the pallas's cats unique features.

## Round and Low Ears

Their ear shape may help with two things:  
1) Minimizing heat loss by having small ears and 2) Help keep them hidden.

## Smaller than You Think

They are the size of a house cat – but they have the densest and longest fur of any cat in the world to keep them warm. This makes them look bigger than they are!

Unscramble each of the clue words.

Take the letters that appear in the **boxes** and unscramble them for the final message

## Can You Help Our Pallas's Cats?

Two of Nox and Pema's favorite places to rest are high up in their habitat. We do not know why they have decided on these places, but they can often be spotted enjoying the view or having a nap. Can you help them find their way?
