

Hyrax

Surprising Relatives

The science of taxonomy helps us understand relationships between groups of animals. Each of these species has cousins that you might not expect. Guess which animals might be related, and then use different colours to trace the lines to untangle the web and see if you're right!

Seal

Elephant

Rhino

Wolf

Meerkat

Panda

Giraffe

Manatee

Tapir

Hyena

Zebra

Pronghorn

Hyrax

Lion

Seal, Wolf, Panda : Giraffe, Pronghorn
Rhino, Zebra, Tapir
