

Small Actions – Big Impact!

The Calgary Zoo is a
Bee City Business!
We ♥ Pollinators!

Pollinators are the reason we have many of our favorite foods! To say thanks to bees and other pollinators, try building a bee or bug hotel. Share a picture of your habitat with us using [#YYCZooSupportingYou](#).

Bees need
tubes closed
at one end to
make a home.

Looking to reduce your plastic impact? Bees can help with that too! We can make reusable beeswax wraps for snacks using just a few simple materials. Click this [LINK](#) to try one at home!

Check out the [Alberta Native Plant Council](#) for local pollinator plant ideas!
